

## MAY TIE UP THE ENTIRE SYSTEM

**Trainmen on Santa Fe  
May Join Telegraphers  
in a Strike.**

## READY TO STOP WORK

**A Great Sympathetic Strike  
Among Other Railways  
a Feared Possibility.**

## BOTH SIDES CLAIM A VICTORY

St. Louis, Mo., Dec. 10.—General Secretary Pershall of railway telegraphers said this morning that the strike situation was reassuring as no defections had been reported. He declared that such pressure would be brought to bear on the Santa Fe that it would have to yield within twenty-four hours.

It is also stated that the trainmen met at Galveston last night and unanimously indorsed the strike and expressed a willingness to stop work this morning if the telegraphers desired it.

### Officials Are Hopeful.

Chicago, Dec. 10.—The Santa Fe officials here continue to entertain a hopeful view of the strike situation. They claim that they have received a large number of messages this morning from all along the line which strengthens the belief that the backbone of the strike is broken. They also say that the places of the strikers are rapidly being filled.

### Trainmen Are Considering.

Wichita, Kas., Dec. 10.—The Santa Fe trainmen in session here are considering the strike. General Chairman Newman of the striking telegraphers said this morning: "All trains will have to stop today. The Gulf, Colorado & Santa Fe trains will have to stop at noon." The Missouri Pacific operators may strike in sympathy with the Santa Fe men.

### About 900 Are Out.

Chicago, Dec. 10.—About 900 of the telegraph operators on the Atchison, Topeka & Santa Fe railroad, covering the territory from Chicago to San Francisco, are out on a strike. According to the men, advice from points along the 5,000 miles of track in the system indicate that the freight traffic is practically tied up and that passenger trains are running slowly, with no further destination than the next division terminal. Railroad officials, however, deny these tales and aver that not more than 600 operators have struck.

### Kansas City Spread.

Kansas City, Mo., Dec. 10.—The Times says: "Within the next forty-eight hours the walkout of the Santa Fe operators may widen into a general strike and the members of the Order of Railway Telegraphers be joined by those of the Brotherhood of Locomotive Firemen and the Brotherhood of Railway Trainmen. Such is the danger that telegraphers say now threatens the great passenger and freight business of the Santa Fe from Chicago to the Pacific coast and the Gulf of Mexico. Before President Dolphin of the National O. R. T., sent the cipher message over the wires calling out the operators on the line of the Santa Fe proper in support of those of the Gulf, Colorado & Santa Fe he, it is said by the operators, was guaranteed help by the heads of the other big railroad organizations. This is why a general strike is probable. It is declared to be inevitable unless the Santa Fe management decides to accede to the demands of the Gulf line telegraph operators."

## RELIGIOUS SERVICE WITHOUT A CREED

**People's Pulpit Movement at Milwaukee to Be Extended to Other Cities in the State.**

Milwaukee, Wis., Dec. 10.—The People's Pulpit, which is conducted at the Pabst Theater, is to be made the center from which similar movements are to be started in other cities. It is not denominational, but furnishes a place of worship for those who do not wish to be bound by an orthodox creed. The incorporators plan to have the work free from sectarianism, controversy, or partisanship. The pulpit has been in existence for ten months and has done a good work. There is no attempt at church organization and no solicitation for members. It is governed by a board of directors and the attendance is about 1,200. Services are held on every Sunday afternoon the regular pastor being the Rev. T. E. Barr.

Cham. Ingersoll of Beloit was in the city today on business.

## JUGGLING SUBSIDY BILL.

**Little of the Original Form Now Remains.**

Washington, D. C., Dec. 10.—One of the significant things about the progress of the ship subsidy bill is the fact that it has been patched and amended so that the measure of to-day would be scarcely recognizable by its authors if they were not the same persons also who did the amending. The bill was first drafted by a committee of interested shipbuilders in 1897, three years ago, and since that time it has been amended so often that all the earlier reports upon it are practically useless. Whenever a criticism has been offered an amendment has been made promptly, and the sponsors of the subsidy scheme have pointed to these repeated changes as an evidence of their fairness and willingness to meet all proper criticism. Inasmuch as the bill has been so often changed, it is manifestly impossible for its opponents to meet it, for amendments are made readily, but are not always calculated to cure the evils complained of. The bill, it should be remembered, was drafted by a shipbuilders' committee, the president of which was C. A. Griscom of Philadelphia, president of the International Navigation company, commonly known as the American line. Yet now, three years later, the subsidy bill has been amended deftly in such a remarkable manner as to change its provisions seriously, and this change was made for the express benefit of the mail steamships on the Atlantic, and particularly for the personal benefit of the American line.

## PHILIP NORDLUND WAS DECAPITATED

**The Madman Who Ran Hari Kari on Board the German Steamship Prince Karl.**

Stockholm, Dec. 10.—Philip Nordlund, who murdered seven men on the steamer Prince Karl last May, was decapitated here today. Nordlund was captured the day after he committed his crimes. He said he committed the deed and "revenged himself upon mankind." He ran through the cabins at midnight shooting and stabbing everyone that he could find. Besides seven killed he wounded five others. He then lowered a boat and escaped to the shore.

## LABOR FEDERATION IS HARD AT WORK

**Resolutions Passed Expressing Sympathy with the Striking Telegraphers on the Santa Fe.**

Louisville, Ky., Dec. 10.—Committees on Porto Rican message, eight hour law and compulsory arbitration were named by Gompers at this morning's session of the federation. It was resolved that organized labor should concentrate its efforts upon securing the initiative and referendum as the best means of legislation and the enforcement of the labor laws. Resolutions of sympathy for the striking telegraph operators were passed. A resolution for the adoption of a department of labor with a cabinet officer was reported unfavorably on the ground that such department would ultimately represent capital and not labor. A resolution in favor of an eight hour law for postal clerks was passed. A resolution declaring for the municipal ownership of street railways, after amended to include all public utilities was passed.

## TOWNE SWORN IN AS A U. S. SENATOR

**Cordially Greeted and Welcomed on the Democratic Side—Consider Hay Pauncotote Treaty.**

Washington, Dec. 10.—In the senate after prayer the credentials of Chas. A. Towne, appointed to fill the unexpired term of C. K. Davis were presented by Nelson of Minnesota. The credentials read "until his successor is elected and qualified." President Frye greeted Towne after the administration of the oath and the new member made his way to the democratic side of the chamber where he was cordially welcomed.

At ten thirty the senate went into executive session to further consider the Hay-Pauncotote treaty.

In the house the legislative, judicial, executive appropriation bill was taken up and Chairman Bingham of the appropriations committee took the floor to explain its provisions. As reported the bill carries twenty-four and a half millions of dollars.

The senate committee on judiciary favorably reported the nomination of William D. Bynum of Indiana to be a member of the commission to codify the laws of the states.

J. G. DeLong returned to his home in Chicago this morning. He was accompanied by his sister, Mrs. W. M. Carrier who will remain in Chicago until after the holidays.

## DAISY POST HAS FINALLY MARRIED

**SHE IS A MEMBER OF NEW YORK'S SMARTEST SET.**

**Bridegroom is James V. Van Alen, a Blue Blooded Scion of a Rich New England Family—Numerous Engagement Reports About Miss Post—Some Splendid Wedding Presents**

New York, Dec. 10.—Miss Margaret Louise Post, better known as "Daisy Post," a member of New York's smartest set, daughter of Mrs. William Post, and the sister of Mrs. Frederick W. Vanderbilt, was married at noon today to James Lawrence Van Alen. The bridegroom is the son of James J. Van Alen, who declined the office of minister to Italy proffered to him by President Cleveland and grandson of Mrs. William Astor.

Mr. Van Alen has opposed the marriage because his son is but twenty-one, while Miss Post is seven years older, but he relented at last. The ceremony took place at the home of the bride's mother, 100 East Thirty-ninth street, and was of a quiet nature because of the recent death of the bride's father. Three hundred guests attended the reception.

### Reported Engagements.

Rumors of Daisy Post's engagement have been circulating more than once. In 1897 it was reported that Bradley Martin, Jr., would lead her to the altar, but young Martin went to Europe and the expected announcement of the engagement was not made. Then came young Marquis De Son Vito of Italy. The marquis was all attention, but at last he took his departure. Next the gossips linked the names of Miss Post and Mr. Van Alen, and this time, as the events prove, they were in the right.

Miss Post had as bridesmaids Miss Sara Van Alen, sister of the groom, and Miss Mable Gerry, daughter of the Commodore. The best man was Orme Wilson, brother-in-law of Cornelius Vanderbilt. The ushers were Robert L. Gerry, Lawrence R. Gillespie, George Griswold, Jr., and Frank W. Andrews, Jr.

### Splendid Wedding Gifts.

Mr. and Mrs. Van Alen will go to Europe on their bridal trip. On their return they will go to live at 40 East Fifty-fifth street, a beautiful house presented to the bride by her uncle, William K. Vanderbilt.

Among the wedding gifts are a house valued at \$100,000, a tiara that cost \$50,000, \$50,000 worth of jewels, \$10,000 worth of gold and silver plate, \$20,000 worth of pictures and "bric-a-brac." The bride's dowry is \$100,000.

## TEMPORAL POWER FOR THE PONTIFF

**Archbishop Ireland Declares Head of Catholic Church is Practically a Prisoner in the Vatican**

Washington, D. C., Dec. 10.—Archbishop Ireland, in a sermon preached at St. Patrick's church in this city yesterday reviewed the question of the independence of the pope, and prophesied that at no remote day "the Italian people and Christendom, at large would give back to the papacy its wonted dignity and liberty."

The discussion of what is known as the Roman question was especially significant, as the archbishop, during the latter's recent visit to Rome, talked at length with the pope. The archbishop referred to the pope as a prisoner in the Vatican, voluntary in that no physical force prevents his leaving its precincts and involuntary in that he could not go beyond the Vatican without impairing his dignity as Pontiff and without seeming to accept the situation created for him by the entrance into Rome of the troops of the Italian government.

The archbishop said the Catholic church is "a divinely created organism receiving directly from Christ its mission and all the rights which are needed that it may live and work. Its life and mission are expressed in its supreme chief, the successor of Peter, and to him belong in a pre-eminent manner all the rights inherent in the church and whose possession is needed for fulfillment of its mission and work willed by Christ. Hence the Pontiff's right to independence and as a consequence to temporal sovereignty."

### Death of Ruth Will.

Ruth Will, infant daughter of E. Will, who resides on Washington street near the end of Hamilton avenue died this morning at the home of her parents. The little one was the pride of the household and the parents are broken hearted at her taking away. The funeral was held from the family residence this afternoon at 3:30 o'clock, the Rev. J. C. Koerner officiated. The interment was at Oak Hill cemetery.

Rev. A. G. Wilson is the guest of friends in Cleveland, Ohio, his old home.

## URGES REFORM IN THE POSTAL LAWS

**ABUSE OF SECOND CLASS U. S. MAIL PRIVILEGES.**

**Annual Report of the Postmaster-General—Revenues Pass the One Hundred Million Dollar Mark, and Are Still Growing—To Extend Rural Free Delivery System.**

Washington, D. C., Dec. 10.—Postmaster General Charles Emory Smith, in his annual report made public last night, besides discussing domestic and insular operations in the last fiscal year, devotes particular attention to the abuses of the second-class mail matter privileges and the extension of free rural delivery. He makes the following recommendations for legislation:

Compulsory separation by publishers of second-class mail matter.

Amendment of the interstate commerce law to prohibit telegraph and express companies or their employees from aiding or abetting in the green goods or lottery swindles or any other wrongful scheme carried on jointly by mail and common carriers.

Punishment of persons who forcibly attempt to enter mail cars or who assault a railway mail clerk while on duty.

Authority for postoffice inspectors to take out search warrants whenever necessary.

Payment of incidental expenses incurred by local officers or others in the arrest, detention, and keeping of prisoners charged with violation of postal laws until the United States takes the custody of the prisoners.

### Growth of the Revenues.

During the last fiscal year the total receipts from all sources aggregated \$102,354,579; total expenditures, \$107,740,268. The excess of the expenditures over the receipts was \$5,385,689. The revenues have now passed the hundred million mark. The deficits have shrunk from \$9,020,055 for the fiscal year 1897-'98 to \$5,385,688 for the last fiscal year, a decrease of \$3,635,217 in three years, notwithstanding the large expenditures now made for several new features.

### Rural Free Delivery.

The extraordinary extension of the rural free delivery is characterized as the most far reaching feature of postal development in recent times. It is a factor, says the postmaster general in the social and economic life and makes communities feel a new pulsation.

"We are confronted," he says, "with the problem of gradually extending the delivery service over the whole area of the country where it is physically feasible, or where the population is not so scarce as to make it unreasonable."

"The gross annual cost of maintaining rural free delivery through such territory is approximately estimated at \$20,555,800. It can be extended over practically the whole country at an annual cost of less than \$14,000,000, allowing for savings for discontinuance of offices and routes and increased receipts."

## EIGHT PERSONS DIE IN A GALE ON ERIE

**Barge Charles Foster Sinks—All of Her Crew of Eight Persons Are Drowned.**

Erie, Pa., Dec. 10.—In the midst of one of the most bitter gales that ever swept Lake Erie, the ore barge, Charles Foster, in tow of the Iron Duke, plunged to the bottom at 4 o'clock yesterday morning ten miles off this port and eight persons were drowned as follows:

Capt. John Bridges of Cleveland.  
First Mate; name unknown.  
Second Mate; name unknown.  
Seaman Robert Wood.  
Seaman William Kelly of Port Austin, Mich.  
Cook Mrs. May of Detroit.  
Two unknown deck hands.

The Charles Foster was one of the fleet of James Corrigan of Cleveland, and for two months had been running from Duluth to this port with iron ore. Her cargo consisted of 1,500 tons of ore.

The loss of the Foster's crew runs the number of lives lost on the lake this season up to 118. The previous total of 110 was already the largest for many seasons. The Foster went down not far from the scene of the loss of the steamer John B. Lyon earlier in the season, where nine men were drowned.

### W. H. Hopkins Dead.

Chas. Dutton received a telegram from his son George Dutton at Leavenworth, Kas., announcing the death of W. H. Hopkins, father of Mrs. Geo. Dutton. Mr. Hopkins lived for a number of years near Shopshire, but of late has made his home in St. Louis, Mo. Mr. and Mrs. Dutton left today for Leavenworth.

## HERDED HUMAN BEINGS.

**Alleged Kidnaping of Porto Rican Laborers for Hawaii.**

San Francisco, Dec. 10.—Three ca: loads of herded human beings, whose every movement is watched by keen-eyed keepers ready to prevent any effort to escape, are now on the way to this city en route to Hawaii, where they are destined to elave on the sugar plantations. These people are kidnaped Porto Ricans, and number in all 115. They are young men, boys, women and children. The Southern Pacific railroad people are said to be in collusion with the men who have engineered the kidnaping, and have arranged to get the Porto Ricans to this city just in time to catch the Pacific Mail steamer Rio Janeiro, on Dec. 14. The islanders are to be taken off the cars at the Oakland mole and put on a tugboat with all their baggage. The tug will go immediately alongside the steamer and unload the captives. In this way it is hoped that none of the Porto Ricans will escape their enforced slavery.

### Ships Built in Four Months.

Washington, D. C., Dec. 10.—The vessels built in the United States and officially numbered from June 30, 1900, to Nov. 30, 1900, were 485, of 149,933 gross tons. The principal items of the total are seven steel steamships on the great lakes (34,933 gross tons) and four smaller steam steamships (8,456 gross tons), which would pass through the new Welland canal, and one steel schooner barge (2,790 tons).

## FRUIT IS NAMED FOR CIRCUIT JUDGE

**Governor Scofield Appoints J. J. Fruit of La Crosse to Succeed the Late Judge Wyman.**

Madison, Wis., Dec. 10.—Atty. J. J. Fruit of LaCrosse was Saturday appointed by Governor Scofield to succeed the late Judge O. B. Wyman on the bench of the circuit court for the Sixth Judicial district. Atty. E. C. Higbee of La Crosse was also urged for the appointment by the La Crosse lawyers. Mr. Fruit then resigned from the state board of normal school regents, and L. T. Coleman of La Crosse was appointed to fill the vacancy.

## KING OF THE DUDES LOSES A LAWSUIT

Kansas City, Mo., Dec. 10.—Judge Pursey has entered judgment against J. Waldere Kirk of New York, "king of the dudes," in favor of the Midland hotel for \$132.70, the amount of a board bill contracted by the "Baroness" Blanc, who claimed she was Kirk's wife. Kirk denied that the woman was his wife, but it was brought out in court that they had registered at another hotel as man and wife and that Kirk had paid other bills.

## FILIPINO REBELS IN RAPID RETREAT

**Apparently the Insurgents Are Falling Back at All the Contested Points in Luzon.**

Manila, Dec. 10.—While the captures of supplies and the occupation of new points are quite numerous, those involving actual fighting are comparatively few. Apparently the insurgents are falling back at all contested points, sacrificing their possessions in most cases and satisfied to save themselves. A detachment of the Forty-seventh United States volunteer infantry from the Island of Catanduanes, off the southeast coast of Luzon, relinquished an attempt to land near Pandan. On anchoring the Americans were fired upon by sixty riflemen, and, after a short engagement, they cut the anchor chain and sailed for Catanduanes, with two killed and two wounded.

## ENGLAND DELAYS REPLY TO POWERS

**All the Other Allies Have Agreed to the Preliminary Demands Made on China.**

Pekin, Dec. 10.—The dilatoriness on the part of the British foreign office in instructing Sir Ernest Satow is responsible for the delay in signing the preliminary demand note which is to be presented to the Chinese government through Li Hung Chang and Prince Ching. All the other allies have agreed to the preliminary demands and also to the language of the full note, the text of which was cabled to England ten days ago. As soon as the British representative receives his instructions another meeting of the ministers will be called.

### Sam Small Outlawed.

Havana, Cuba, Dec. 10.—Evangelist Sam Small, the former editor of a Havana paper, arrested recently on the charge of swindling, has compromised with his prosecutors by agreeing to leave the island forever.

## LIBERALS VICTORS ON CREED REVISION

**THOSE DESIRING A CHANGE HAVE SCORED A TRIUMPH.**

**Majority of the Presbyterian Committee Are in Favor of the Dropping of the Damnation Part of the Creed and Adding Three New Articles Thereto.**

Washington, D. C., Dec. 10.—The committee of sixteen appointed at the last general assembly to revise the creed of the Presbyterian church has completed its session of ten days, and, although no definite conclusion has been reached, it has made substantial progress.

Exactly one-half of the committee is in favor of a general revision of the creed and the confession of faith. Four gentlemen—Dr. Kibben of Cincinnati, Judge Humphrey of Louisville, and two others—are determined in their opposition to any change whatever.

### Drop Out Damnation Part.

The remaining four which include Dr. Dickey, the moderator of the assembly, ex-President Harrison and Justice Harlan of the supreme court, are termed "moderate revolutionists," and favor what one of them called "the damnation part" of the creed and adding three new articles on the redeeming love of Christ, the influence of the Holy Spirit and the advancement of the church by the means of missions.

They also advocate the preparation of a historical and explanatory note, a sort of diagram, defining the meaning of those parts of the creed and the confession over which there is a controversy.

The committee adjourned to meet again on February 12 in this city, and in the meantime, the different members expect to consult with the wise men of the church and ascertain so far as they can the sentiment of its members upon the points mentioned.

### Triumph for the Liberals.

This indicates a decided triumph for the liberal element of the church, and it was accomplished under the able and skillful leadership of Dr. Herrick Johnson of Chicago; Dr. Samuel Nichols of St. Louis; President Stewart of Auburn theological seminary, and Dr. Henry Van Dyke of Princeton. There were several exciting discussions and what the Rev. Dr. Radcliff calls "dramatic situations," but the members of the committee are pledged to secrecy and will give no details.

## "DAD" AND "LEFTY" BOTH ACQUITTED

Milwaukee, Wis., Dec. 10.—"Dad" Flynn and "Lefty" Fitzgerald yesterday were acquitted of breaching into the postoffice at Berlin last September, the jury acting under the direction of Judge Seaman. They were immediately re-arrested on a bench warrant charging them with stealing a registered letter from the Berlin postoffice and are still in jail. District Attorney Phillips said that the men would not be tried again this term. The attorneys for the defense will however make an attempt to have the other indictments against them quashed before the new year.

## RUSSIAN CZAR WILL NOT AID TRANSVAAL

**He Expresses the Highest Esteem for Paul Kruger, But Cannot Go Beyond That.**

The Hague, Dec. 10.—President Kruger has been refused aid by the power upon which he placed his last hope. The Czar of Russia wrote to inform the Boer leader in the most delicate yet unmistakable manner that recent ill-health made it impossible for him to interfere in any way in the Transvaal affairs. He expressed the highest esteem for Kruger and the sincerity of his purpose, but let it be understood that beyond that he could not go.

## RAILWAY TRAIN RUNS OVER STREET CAR

Pittsburg, Pa., Dec. 10.—The Cumberland accommodation for Pittsburg on the Baltimore and Ohio road crashed into a United Traction car filled with people at Rankin. One man was killed outright, his wife so badly hurt that she can hardly recover, his baby was seriously injured and a score of other passengers were badly hurt. The dead man is unknown and his wife is still unconscious from the effects of her injuries. The child was found clasped in the father's arms with the mother's body across them.

Geo. E. King returned from Chicago Saturday. He is now busily engaged in taking inventory at the People's drugstore, which he recently purchased.

## TEACH YOUNG MEN WORK ON THE FARM

SHORT AGRICULTURAL COURSE  
OPENS AT MADISON.

The State Pays \$75,000 Per Year to Maintain the Agricultural College—An Institution That Has Been of Great Benefit to the Farmers of the Badger State.

Madison, Dec. 10.—The short course of Agriculture at the University opens today, and the number of students entering is not far short of 300. The course increases each year in popularity, and the day is not far distant when agriculture will be, as it should be, one of the most important branches taught in the public schools.

This course has been a potent factor in developing the agricultural interests of Wisconsin, and its history is a story of steady, uniform progress. The College of Agriculture receives \$75,000 per year for its maintenance, of which sum \$45,000 comes from the state legislature and \$30,000 through acts of congress.

The short course was established in 1886 as a three months' course of practical instruction in farming. Four years ago it was increased to a two winters' course of three and a half months each, and remains so at the present.

Here the young man has admirable opportunities to become efficient in his chosen calling, the most ancient of all vocations. So complete are the advantages offered at the state institution that applications for admission come from several different states in the Union and even from foreign countries. Here the student may pursue his agricultural studies and return to his rural home in time to begin the spring work and put into practice what he has learned in laboratory, dairy and stock buildings.

In the full course the following work is included: Feeds and feeding, breeds and breeding, veterinary science, plant life and horticulture, stock judging, farm dairying, bacteriology, agricultural chemistry, farm economics, agricultural physics, farm-book-keeping, parliamentary practice and farm blacksmithing and carpentry. Like the instruction given in the dairy school, it is theory followed by practical work in the demonstration rooms. The students become expert judges of stock. This is verified by the demands which come nearly every week for the services of young men who have completed the course. Only last season forty-seven of the fifty-four district and county fairs held in the state secured the services of former short course students to place the awards upon the live stock.

In the feeding of farm animals the students learn the use of the various feeds grown in Wisconsin and neighboring states and their rations that can be made from them for feeding stock of all kinds.

In veterinary science the students are given lectures on the physiology, anatomy, and hygiene of the animal body with discussions on the diseases of farm animals and their prevention and cure. This work in veterinary science is only intended to give instruction that is of high value to the stockman.

In breeds and breeding the student is drilled on the various breeds of live stock and live stock judging.

Along this line of work students are given as much practical instruction as possible in the stables in the care and management of the different classes of stock.

During the course work is given on principles affecting the draft of wagons, the properly making of and caring for country roads, and the building and ventilation of barns. Subjects concerning the use and construction of silos, tile drainage and running steam engines are studied.

Horticulture and plant life are discussed in lectures followed by practical work given in setting out orchards, the seed and its germination, how plants are affected by heat, cold, moisture, dryness; the propagation and pruning of fruit trees, and the care and growing of small fruits and vegetables.

Farm dairying is one of the principal studies of the short course. It is for the young man who wishes to carry on farm dairying. Some of our greatest farmers devote their entire work along this line of business.

A branch of agricultural work is found in the farmers' institute. By this means scientific and practical instruction is spread all over the state. Last year 130 institutes were

DOROTHY SHERROD WITH TIM MURPHY IN "A BACHELOR'S ROMANCE."

The Myers Grand will have for an attraction tonight Tim Murphy in Sol Smith Russell's "A Bachelor's Romance." This beautiful play has quality and flavor which promises to endure. It is a prettily told, delicately woven story with something of a heartache, much of a heart yearning and enough of a heart joy to make the shadows light and the troubles right. The inducements are not unconventional, nor are they wholly original, but yet they have been interwoven with such nicety that the denouement is attended with all the effect of novelty.

The business association of such prominent theatrical folks as Tim Murphy and Fred Berger promises more beneficial results for the state than the casual observer would naturally imagine. Mr. Berger has been Sol Smith Russell's manager throughout the great actor's entire theatrical career, and at the time of Mr. Russell's retirement from the stage decided to enter into no other field of theatricals than that which he and his star for so many years offered for public approval.

Tim Murphy and Sol Smith Russell have both catered to the same class of theater-goers and to a degree have presented the same kind of pure, wholesome humor, tinged with realistic and highly colored pictures of American life, both adept in the art of moving the heart strings of their audiences. Mr. Berger has been for years an ardent admirer of Mr. Murphy, hence the consolidation of interests. Mr. Murphy's success in New York last spring is still fresh in the minds of the theater going public.

The following is taken from the New York Daily News: "Mr. Murphy's methods are more akin to those of Russell than any of the others; yet there is a drollery, a lurking

spirit of humor in his creation that Mr. Russell never achieved." The New York World says: His business is subtle and true, his pathos is tender and appealing, his appearance and manner picturesque and entertaining."

Mr. Murphy's support includes Wm. H. Pascoe, Percy Brooke, Fred A. Thomson, J. R. Armstrong, J. Lester Wallack, Dorothy Sherrod, Fanny Addison Pitt and Ethel Strickland. A brand new production is furnished by Manager Berger, who has shown great care and attention to the smallest details.

A fair sized and highly pleased audience witnessed the production of the "Tyranny of Tears" by Charles Frohman company, at the Myers Grand on Saturday evening. Seldom has a more evenly balanced company appeared on the stage in this city. The attention of the audience was held from the beginning and it caused a sigh of regret to come from the most of those present when the curtain fell at the end of the last act.

The play is full of good things. Many lessons can be learned from it in regard to family happenings. There are but six people in the cast, but all first-class. Margaret Robinson took the part of the wife that always resorted to tears to make her husband comply with her wishes, and filled it to perfection.

Grace Ellison was an ideal amuseuse and her beauty and grace won the hearts of the audience.

H. Reeves Smith in the character of a popular author was excellent. William B. Smith as a cynical man of the world kept the audience in good humor by his droll remarks. Charles Bowser as Colonel Armitage was good and Harry Spear as Evans a waiter was first-class. A play of this quality greatly deserved a full house.

## SUNDAY SERVICES AT THE CHURCHES

At the Congregational church yesterday morning Rev. R. C. Denison preached on spiritual independence, taking his text from Paul's second epistle to the Corinthians, III, 17: "Now the Lord is that spirit and where the spirit of the Lord is there is liberty."

The discourse evidenced profound study and an insight into man's spiritual evolution and an appreciation of his moral obligations which made the elaboration of his theme intensely interesting. It is one of the ablest efforts of Mr. Denison since he has been in the city and could be heard with profit by every man and woman in the community.

A very beautiful contralto solo, "O Beautiful Land," was sung by Mrs. F. F. Lewis. The children's chorus rendered a Christian battle song with good effect.

The senior Y. P. S. C. E. meeting at 6 p. m. was held and at which time Mr. Denison exhibited some famous pictures on the temptations of Christ.

The subject of the evening discourse was the darker side of life, with Pontius Pilate as the type of weakness, cowardice and irresolution.

### Services at Christ Church.

Rev. F. L. Maryon officiated at the morning service yesterday at Christ church. Mr. Maryon is chaplain of Kemper hall, Kenosha, and he was here partly in the interest of that institution. He is anxious to increase the endowment fund beyond its present dimensions. He took part, also in the evening services at Trinity church.

### At the Presbyterian Church.

Yesterday was communion Sunday at the Presbyterian church, and all the separate parts of the morning service bore the impress of the communion idea. The following named persons were admitted to membership on profession of faith: Mrs. John Keenan, Arthur E. Bailey, Robert I. Erler and George H. Miller.

The soprano solo by Miss Ida Taylor was delightful and as was also the anthem, "Nearer My God to Thee," by the choir.

## Phone Trust Being Formed.

New York, Dec. 10.—Opposition to the American Bell Telephone Company will culminate within a few days in the merging under the name of the National Telephone and Telegraph Company, of all of the leading independent telephone companies in the east. According to private advices from Baltimore, negotiations have been secretly conducted in this city during the last two weeks, and the details of the new \$50,000,000 national company may be expected shortly. It will start out with more than 200,000 subscribers, and this number will be greatly increased by the establishment of working relations with smaller concerns. The new company will go as far west as Cleveland and possibly to Chicago and Minneapolis.

## Five Shot in a Fight.

Mountain View, Okla., Dec. 10.—In an affray in the Cattle Exchange saloon the most bloody battle that ever occurred in this territory took place last night, and as a result five men were shot, three fatally. Four members of the Hughes gang from Oak Creek rode into the town bent on taking the place. Starting at the outskirts they shot into the various resorts until they came to the Cattle Exchange saloon.

## Farmer Killed in Quarrel.

Wayne, W. Va., Dec. 10.—Robert Bailey, a wealthy farmer of this county, was shot and instantly killed on Garrett's Creek by Charles Smith, a neighbor. The men met at the home of one of Bailey's tenants when a difficulty arose. Bailey attempted to strike his opponent with a club when the latter pulled a gun and fired. Smith surrendered.

## Mrs. Mary L. McLean Dead.

Washington, D. C., Dec. 10.—Mrs. Mary L. McLean, widow of the late Washington McLean of Cincinnati, died here at her residence, 1705 K street, this morning. For some time Mrs. McLean had been troubled with an affection of the heart. It developed alarming symptoms on Friday morning, and, although the efforts of the physicians in attendance were incessant, ended in her death at an early hour today. At the bedside when Mrs. McLean died were her children, John R. McLean, her son, and her daughters, the wives of Admiral Dewey and Rear Admiral Ludlow. Admiral Dewey also was present.

## Blow His House to Atoms.

Huntsville, Ala., Dec. 10.—Whitcaps blew the residence of A. J. Thomas, near the little town of Cluttsville, into atoms last night with dynamite. Thomas was about 40 years old and unmarried. His offense against the moral little community in which he lived was that seven women lived with him. Several warnings to send the women away were sent to him. Only one woman is known to have been seriously hurt in the explosion. Thomas and the others have fled.

Four Men Rob at Painesville, Ohio. Painesville, O., Dec. 10.—Four masked men forced an entrance to the office of the Mentor knitting mills this morning, bound the watchman and his wife, and blew open the safe with nitro-glycerin. The robbers secured \$50 in money and escaped.

## STOMACH RELIEF.

The stomach is more often overworked than any other part of the human body. Countless numbers of people eat too much, and nearly every person in the world eats things that do not agree with the system. The stomach is the first organ to feel the evil effect and to suffer. The overplus of food and the things that are unwholesome, or often mildly poisonous, are emptied right into the stomach and it is given the impossible duty of digesting and assimilating all this stuff. Is it any wonder then that the stomach suffers? Is it any wonder that it needs relief? When a man is overworked in this fashion he simply breaks down. Who can wonder then that the stomach is deranged by this unjust burden and must refuse to do its work?

It is because of this ignorant and unnatural eating that most people are afflicted with some sort of stomach trouble, which is usually followed by liver or bowel complaint. For this same reason nearly everybody needs a stomach regulator to strengthen and invigorate the stomach and enable it to do its work well. In this situation

## JOHNSON'S STOMACH TABLETS.

are the best possible remedy, because they give quick, sure and permanent relief. They act directly on the stomach, assisting it to rid itself of waste food and poisonous matter. They heal and strengthen the inflamed or weakened surface of the stomach give fresh vigor to the whole organ and aid it in its work of separating the strength and nourishment in the food from the waste matter, so that the valuable parts may be turned in new, healthy blood, bone, flesh and muscle. In this way it keeps men, women and children strong and healthy.

JOHNSON'S STOMACH TABLETS are invaluable in all cases of malaria, indigestion, constipation, diarrhoea, biliousness, and every form of stomach, liver and bowel trouble. They are unequalled for this purpose and never fail to effect a swift and lasting cure while the directions are faithfully followed.

As a gentle laxative JOHNSON'S STOMACH TABLETS are without an equal. They never fail to cause a movement of the bowels, no matter how acute the case may be. They can also be used as a purgative by doubling or tripling the dose. If people could be made to realize how important to the health is the regular movement of the bowels, they would keep these tablets always at hand.

JOHNSON'S STOMACH TABLETS purify the blood, tone and keep the system in order and cure that tired feeling. They are for universal use. Even though you feel well, a tablet will make you feel better.

Get them from H. Kirk White, sole agent. Popular prices, 10c. 25c, 50c. Made by the Johnson Laboratories, Inc., Philadelphia.

## A QUESTION OF REFORM.

The Chicago Tribune, in writing on the president's message, has very wisely said that a state paper of such importance should be so concise and brief that the average reader would spend time to read and digest it. The Queen of England recently sent to Parliament, convened in extra session, a message of less than 500 words that contained all she deemed necessary to say. It was on no less an important topic than the South African war, yet so clear and concise in statement, that the question was completely covered.

The late message to the national congress contained 20,000 words, and filled a page with fine type, that not one reader in fifty would spend time to read. The secretary of every cabinet position publishes a detailed report of his work, much of which is repeated in the message. If President McKinley possesses the courage to abolish an old-time custom and will edit future state papers after they are written, and give the public a boiled down synopsis of about 3,000 words, they will be read with interest and profit by the reading public.

## MINNESOTA'S DISGRACE.

Colorado disgraced herself not long since in a brutal lynching affair, but it is left to the fair state of Minnesota to disgrace the honored seat she occupied in the senate in the person of the late Cushman K. Davis, by putting into it that ambitious populist, Charles A. Towne, the man who asked for populist recognition at Kansas City last summer.

Minnesota formerly enjoyed the reputation of good horse sense, politically, and every other way, but she went daffy two years ago and elected a populist governor, and now is receiving the reward. Better for the honor of the state to have crepe on Senator Davis' chair during the short session than to have it occupied by a man of Mr. Towne's political creed.

Senator Davis not only represented the state well, but he represented the nation as one of her greatest statesmen. His name has gone into history with a record worthy of the man, and more than worthy of the state that permits his name to be traduced by electing to high office a man like Governor Lind. The governor may have been a good executive, but the closing act of his official career will live as a blot on his name long after his good official acts are forgotten. There is a certain amount of respect due to the memory of the dead. Senator Davis belonged to the nation, his loss is mourned by the nation. Governor Lind has ignored the feeling of the sensibility and appreciation that clings for a time to the memory of a fallen hero, whose last thought and word was for the nation that he loved.

The state owes it to its good name to resent this sort of high-handed buffoonery.

One of Chicago's most prosperous saloon keepers has promised his two saloons to be open every Sunday evening for the use of any pastor who wishes to hold services there. So many preachers accepted his invitation for next Sunday that he has had to make a choice, which fell on Dr. Goodwin for twenty-five years pastor of the First Congregational church, and Dr. Fox, pastor of the California Avenue Congregational church. Surely if the men and women who frequent these places will not go to church, the church must go to them.

Governor Pingree, of Michigan, proposes his name shall go ringing down the corridors of time, whether it be for fame or infamy. Anarchist Al Geld won high honors as a pardoner of criminals, but Hazen S. Pingree has dared to pardon two criminals, sentenced by the supreme court of the state, who received their appointment because of their personal friendship for the governor, and who proceeded to rob the commonwealth, which they had sworn to serve, to the best of their ability. The governor deserves the title of champion potato raiser and pardoner of criminals.

The election of Charles A. Towne as the successor of the late Senator Davis is considered consolation for his withdrawal in favor of Adlai Stevenson during the recent campaign. This move simplifies matters for the republicans in Minnesota. The new one remains to contest the election of Senator Nelson.

Gen. Mercier has been indulging in some war talk in the French senate. His plans show how easy it would be to put an army into England, and cap-

ture London. No doubt France could get an army into England; the trouble would be, to get it out again.

While the congressmen are considering a reduction of war taxes for the benefit of the brewers and tobacco men, would it not be proper to consider the poor man, even though he cannot afford to lobby?

CANNING FACTORY  
MEN MEAN BUSINESS

Subscriptions Toward the \$5,000 Bonus  
Are Coming in Slowly—Citizens  
Must Exert Themselves.

It will be necessary for the citizens of Janesville to come forward with their donations if they expect to get the canning factory located here. So far the citizens of this city have not taken hold of the matter with the view necessary to secure a location of it in this city. There is no question but that it is a good thing and there is no question about some other city getting this industry unless Janesville will immediately raise the \$5,000 asked by the concern for locating here.

The gentlemen that are the promoters of this project are thorough business men and make their proposition to the people of Janesville in a business manner. They have offers from other cities to locate their plant within their limits, but as they have made a proposition to Janesville they are going to stand by it until they are told that it is no go.

The members of the Mid-Winter Fair committee are out hustling for donations and are giving all of the time to the project that they can possibly spare from their business. They will accept any subscription, no matter how small, and would feel very grateful towards any person who is anxious to see the factory come here and the best interests of the city advanced, if they would call at the Bower City bank and sign the subscription paper.

E. O. LEE MARRIED  
AT SOUTH BEND

Son of Mr. and Mrs. Lucine H. Lee of  
This City—The Groom, Well  
Known Here.

Edwin Otis Lee, son of Mr. and Mrs. Lucine H. Lee, 206 Division street, was on December 5 joined in the holy bonds of matrimony at the home of the bride's parents at South Bend, Ind. The bride is Miss Florence Adella Braginton, a most popular and highly esteemed young lady of South Bend.

The happy couple were the recipients of hearty good wishes and many handsome and costly gifts.

The bride is a most worthy young lady who has a host of friends. The groom is a well-known former resident of this city and while here held the position of electrician with the Janesville Railway company. Mr. Lee is the possessor of many friends in Janesville and vicinity who will join in extending to him and his bride most hearty congratulations.

Mr. Lee now holds a responsible position in the electrical department of the South Bend Electric street railway in which city he has resided for two years.

CANDIDATES ARE  
LIABLE TO A FINE

Time Has Expired, But Still a Large  
Number of Expense Accounts  
Have Not Been Filed.

County Clerk F. P. Starr is still waiting for the defeated candidates at the recent election to file their expense accounts. The time for filing them under the law has expired and so far but three of the defeated candidates have filed their accounts.

The law says that every candidate before any convention shall file a statement of his expenses with the officer who is authorized to issue the certificates of election, within thirty days after such election has been held, or be subject to a fine of one hundred dollars.

The custom of filing expense accounts by defeated candidates, has come to be a dead letter by the most of them, and still under the law they are as much liable to a fine, as a successful candidate who does not file his account.

The law is very explicit on this point and some people would feel very much hurt should anyone file a complaint against them.

## McDermott vs. Finnegan.

Justice Earle is busily engaged today in hearing the case of McDermott vs. Finnegan. The facts of the case are that the McDermott boys and Finnegan, attended a dance a short time ago, and after the dance started for home. The two McDermott boys and Finnegan occupying McDermott's buggy. After going a short distance they came to a saloon and the McDermotts got out leaving the buggy in Finnegan's charge. When they came out of the saloon the horse and buggy and Finnegan had disappeared. When they next saw it the whip and robe were gone and the buggy damaged.

TEACHERS ELECT  
THEIR OFFICERS

Miss E. May Clark of Janesville, Made  
Vice President—Closing Ses-  
sions at Beloit.

Miss E. May Clark of this city was elected vice president of the Rock County Teachers' association at their annual election held at Beloit on Saturday afternoon. The officers elected at that time were:

R. E. Loveland, Clinton Junction, president.

E. May Clark, Janesville, Vice president.

Mr. Nicholas, Secretary.

Miss Minnie Haywood, Evansville, treasurer.

The second day's session was a successful one although the attendance was not as large as was hoped, and fell behind that of the sessions held in Janesville. There were fourteen members of boards of education present. The different numbers on the program were of a highly interesting character. O. J. Kern's address on the "Consolidation of Districts" was a fine one and full of good points, as was that of J. W. Cook, of DeKalb, the latter having an air of the humorous to it. The sectional meetings in the afternoon were largely attended and proved instructive as well as being full of interest.

## Maimed Boy for Life.

Johnny Ford, the eighteen year-old son of Ed. Ford of the town of Porter met with an accident about 4:30 o'clock on Friday after noon that will maim him for life. Ford was driving a horse power operating a corn shredder and got down under the power while it was in motion to oil it. He had on heavy mittens and in some way the mitten on his right hand caught in the gearing, taking his hand along with it. Before the power could be stopped his first and second fingers were smashed up an torn out down into the palm of his hand and the balance of the hand badly lacerated. The injured boy was taken to his home immediately and Dr. Evans of Janesville was summoned and later Dr. Jackson of Madison was called. They hope to be able to save the balance of the hand, but it may be necessary to amputate it.

We have a reputation on oysters. It will pay you to come our way. W. W. Nash.

## CHIEF HOGAN'S WAR ON SLOT MACHINES

**RAID ON PLACES KEEPING THEM  
MADE THIS MORNING.**

**Some of the People on the Inside Got  
a Tip and Removed Their Ma-  
chines—Vile Photograph Machines  
Are Being Exhibited in the City—  
The Places Raided.**

A number of saloon keepers in this city are mourning the loss of their nickle in the slot machines. Chief Hogan went on the war path this morning and rounded up every machine in sight when he arrived. In some places he was more successful than in others, a number of those owning the machines having been given a tip by those on the inside and had their machines safely boxed and stored away when the chief arrived.

In one or two cases it was a rush order and the machines were put into their packing cases which are always kept handy and put into the alley ways or stored in rooms in remote parts of the building. In several cases wagons called at the respective places of business at an early hour this morning, between six and seven o'clock, and the machines were carted off to places of safety.

It made considerable difference who was interested in the machines. In some places they are owned by the proprietors and in others are run on a percentage. The percentage men are the ones that were caught, a tip not being given them as to the proposed raid. It is reported that a man named Lentz, who lives in Clinton is one of the largest owners of the machines in this city and is the largest loser. Janesville is following in the footsteps of Chicago, an order having been recently issued in that city to take all of the machines in operation and they were brought in by the dozens by the police.

Chief Hogan is handicapped in a raid of this kind for the reason that as soon as one machine is taken, word is passed by telephone to all the saloons operating machines and it is only the work of a few minutes to get them out of sight. When the chief arrives at a place where one has been openly operated in the past there is nothing in sight for him to take.

Periodical raids do no good, the machines disappear from sight for a short time and then are put into operation again. The only way that anything can be accomplished in this line is to destroy the machines as soon as they are taken. The council will be called to act upon this question this evening and to frame some measure strict enough to prevent the operation of these machines in the future.

It is not only the nickle in the slot machines which pay all the way from even money to 20 to 1 to the lucky investor, but of late a lot of machines showing a series of the vilest photographs ever shown in this city, have made their appearance and are operated openly in the bar rooms. They are the source of more trouble than all of the gambling machines ever invented.

Machines were picked up this morning by Chief Hogan at Thomas Dermody's, 21 South Main street, E. M. Dermody, 105 W. Milwaukee street, M. M. Farley, 74 East Milwaukee street, T. Siegel, 4 South River street, J. F. Sweeney, Grand Hotel and C. Fredenall, 8 North Main street.

## DRUMMER TAKEN IN, DOPED AND ROBBED

**SMOOTH STRANGER GETS BEST  
OF A TRAVELLING MAN.**

**Young Man Alleging That He Was a  
Doctor, Played an Easy Game at the  
Grand Hotel Last Saturday—Victim  
Anxious to Keep the Matter  
Quiet.**

There is an old saying "That there is a sucker born every minute and a wise man to skin him." This rule holds good the world over and Janesville is no exception to the rule. Last Saturday a drummer reached the city and registered at the Grand hotel. He had a grip in which he deposited about \$40 in money and a diamond ring and left them with the hotel clerk for safe keeping.

During the afternoon he made the acquaintance of a young man giving the name of G. H. Delavan, who claimed to be a doctor here on a visit. They were around together during the afternoon and after supper at night the travelling man complained of pains in his chest. He said that he had caught cold and thought that he would go and see a doctor. He was informed by his friend that he need not go after a doctor as he could fix him up all right. He told the travelling man that all he needed was an alcohol bath and a good rubbing and some medicine which he would give him and he would be all right in the morning.

The travelling man gave the doctor a five dollar bill and told him to go after some medicine which he did and soon returned. They returned to the travelling man's room where the doctor gave him an alcohol bath and a good rubbing. After the rubbing was finished he gave him the medicine and saw that he was well covered up in bed. The medicine soon took effect and the travelling man was soon in a sound sleep or stupor. This was what the alleged doctor was waiting for, and without losing any time he proceeded to go through the clothes of his patient and relieved him of \$12 in money and a watch and chain with an elk tooth charm, the watch and chain being worth about \$20. He then took the key to the room, locked the door to his own room and skipped out and took one of the midnight trains on the C. & N. W. R. R. for parts unknown.

The travelling man under the influence of the drug slept on soundly totally unconscious of his loss. He did not come down to breakfast and about ten o'clock one of the employees of the hotel went to his room to see what was the matter. He aroused the man with some difficulty and when he came to dress he found that his watch, chain and charm had disappeared.

He was till quite dazed from the influence of the drug and could not remember distinctly what had happened. He immediately reported the matter to the authorities who found that the doctor had skipped out the night before.

The travelling man saw at once that he had been worked and from that time on his efforts were directed to keeping it quiet. The loss that he felt the most was the elk's tooth which had been given him by a friend when he joined the Elks.

Those who are acquainted with the details of the affair say they cannot understand how the travelling man was led to believe that the man that did him up was a doctor. He was an undersized, boyish looking fellow and would be the last person that anyone would take for a doctor. However he succeeded in convincing the travelling man he was all right and then whiskey put on a tray and took them doped him and skipped with his money.

The bar tender of the Grand said that the doctor came down stairs on Saturday night and had two drinks of whiskey put on a tray and took them up stairs, when the tray was returned only one glass had been emptied and the bar tender remarked about it when the man told him to drink it himself. The call boy at the hotel started to take the glass when something about the looks of it attracted the bar tender's attention and he took it away from him.

The bar tender examined the glass and found something in the bottom under the whiskey that looked like syrup, he was suspicious of it and poured off the whiskey and heated up the residue which smelled so strong of chloroform that he destroyed the glass that it had been in. He thought it very curious that anyone should be putting chloroform in whiskey, but at that time did not know of the trouble that the travelling man was in.

Putting all the facts together it is not at all unlikely that the travelling man was given a dose of chloroform with his drink which knocked him out.

**Little Frank Kemp Dead**  
Beloit, Wis., Dec. 10.—[Special]—Little Frank William Kemp, the 3 year-old son of Mr. and Mrs. F. H. Kemp, died Sunday morning at 8:30, of membranous croup. The little one was sick only one night. Mr. and Mrs. Kemp were former residents of Janesville.

The prizes to be given on New Years at the Palace Rink are on exhibition in the window of Hall, Sayles & Fifield.

### OWNS A VERY VALUABLE MINE.

**Miss Mabel Woodbury Returns Home  
From Washington State.**

Miss Mabel Woodbury returned home Saturday morning from Seattle, Wash., where she has been for the last four months visiting relatives.

During the time she was away she visited a Molybdenite mine, in which she is a part owner. This mine is located about one hundred miles from Seattle. This is a very valuable mineral and this mine is the only one of the kind in the United States. The mineral is used in the manufacture of steel armor plate, and is a great help in making it so it will stand great shocks.

The mine is located in a wild district, the trip from Seattle to it taking three days. Part of the journey is by water, which is made by steamboats, but the balance is over a rocky trail, necessitating camping on the trail two nights. It is a trip that will be long remembered by anyone making it, especially a lady.

## COLLEGE BOYS ON A REGULAR SPREE

**Attend the Theatre Saturday Night  
and Are Called Down—Ban-  
quet on Sunday Morning.**

It takes a lot of college students to have a good time, when they get away from home. One glance at the dining room at the Hotel Myers on Saturday night at mid-night was enough to show that the class of 1902, Beloit college were out for a good time.

Saturday night about forty of the class of '02 came up from Beloit and attended the presentation of the "Tyranny of Tears." The crowd filed into the opera house to their seats and if there was any person in the house that did not know where they belonged they soon found out.

The first yell was a little weak, but as soon as the students discovered that they were not attracting the attention their football locks and fresh faces demanded they were rounded up by the "yell master" and the roof of the theatre vibrated with noise. They continued to give the college yells between the acts until the balance of the audience became thoroughly disgusted and they were roundly hissed. After that they remained quiet until the close of the play.

After the performance was finished the young folks repaired to the dining room of the Hotel Myers where a specially prepared banquet was awaiting their arrival. The dining room presented a handsome appearance, being brilliantly lighted and handsomely decorated. The tables were placed in a long row corner-wise of the room, extending from the large doors to the opposite corner, and the students with their lady friends presented a picture of youthful pleasure and happiness.

In spite of the fact that they were students in one of the strictest Congregational colleges in the country they kept up their celebration until two o'clock in the morning. It is needless to say that they will be called to account for the desecration of the Sabbath by the head of the institution of which they are members.

Bills of fare, the covers of which were of purple paper, printed in gold and fastened with a gold colored ribbon, were at each table. The cover stated the nature of the function, besides giving the date and class motto, "Nihil Secundus"—D. Harum, 4:16, with the translation of the party, "Hoch solen wir leben."

A song of greeting, sang to the tune of Solomon Levi, was given. It consisted of sixteen stanzas and its rendition was right heartily entered into by all of the boys and girls.

Toasts were responded to by all of the party, and some splendid good ones were offered. The party returned to Beloit at 2:30 and each one had a good time.

Muffs of the moment are flat and slope off narrower toward the top, while the majority carry a head of the animal in the center. The heads of Sitka and also of Cross fox are the smallest, sweetest, sharp nosed physiognomies imaginable, and the Cross fox, which may be described as black, with a plebeian effect, is sending Paris into characteristic ecstasies. A set of Cross fox, consisting of the new flat shaped muffs and flat collar, with long ends reaching below the waist, each finishing respectively with a head and some tails, is a purchase to be followed up with particular avidity.

Sitka fox is practically black, though not a blue black. The hair is very long, fine and silky, and the tiny heads are piquant beyond all description. Chiefly,

one is tempted to think, by reason of its rarity and costliness, that the silver fox must remain king of the furs. That sprinkling of white hairs holds unfathomable depths of beauty to eyes versed in peltry matters, but there is an easy way of imitating silver fox, a trick for which thanks or the reverse are due, according to one's point of view. The imitation is excellent and possibly only to be detected by an expert.

Quite a new species of the popular "broadtail" has recently put in an appearance. It is creamy white, with great splashes of black occurring at wide intervals, and serves a very decorative purpose in the shape of facings to revers and collars.

The chic little bolero illustrated exploits some of the newest ideas in furs. It is made of fine Alaska seal, with a lining of colored brocade, an additional smartness being given to it by the large buttons and buckles of silver-gold with which it is ornamented.

## Chowchow.

One peck of green tomatoes, three onions, six green peppers; chop fine, scald in their own juice and drain. To three quarts of best cider vinegar add one small cup of ground mustard, one tablespoon each of cloves and allspice and five tablespoons of salt. Put all together and let it just come to a boil. Chopped cabbage and chopped tart apples may be added if liked in quantities to suit the taste.

## A Flour Shampoo.

Rather a novel idea in the care of the hair, says an exchange, is a flour shampoo, which some hairdressers now use. The flour is sifted into the hair in handfuls. The locks are then divided into sections and brushed with a soft brush until every particle of flour is removed. Two or three applications of the flour are made each time, which removes a quantity of dust when brushed out.

## Small Things of Dress.

The illustration shows some of the small things of the toilet of which such an array now exists. Cravats and neckties are daintier than ever. The most chic for morning wear are of

narrow velvet or watered silk ribbon thrown once round the neck and crossed over in front, the ends finished with gold aiguillettes. All of these cravats have tips of gold filigree work at the ends and a clasp of the same work confines them under the collar band. They are no longer tied in bows, but simply crossed or knotted, the two ends left free. The latest nouveau buckles and clasps form a large part of the fashionable cravat.

## Big S. ps Lake to Ocean.

Washington, D. C., Dec. 10.—President McKinley has transmitted to congress the report of the deep waterway commission appointed to make surveys and examinations of deep waterways and routes for a waterway between the great lakes and the Atlantic ocean.

While this board makes no recommendations, but simply presents the facts ascertained by its investigations, it says the most favorable route for a thirty-foot waterway is from Lake Erie to Lake Ontario, via La Salle and Lewiston, and from Lake Ontario to tidewater by way of Oswego and the Mohawk Valley. The same route is practically as favorable as any for a twenty-one-foot waterway.

The estimate of cost for a waterway of the high level plan, with a channel of a thirty-foot depth, is \$295,915,451; for the twenty-one-foot channel, \$199,184,610.

## Hay Threatens to Resign.

Washington, D. C., Dec. 10.—It was announced almost openly in the senate that Secretary Hay's place in the cabinet is dependent upon the action on the canal treaty. Most of the senators understand that Secretary Hay has positively declared his intention to resign unless the treaty is ratified practically as sent to the senate.

## A Tenderfoot's Greeting.

The first greeting the tenderfoot received from a citizen of Baird Butte, Mont., to whose good graces he had been commended, took his breath away. "Pity you didn't come three weeks sooner," said the prominent citizen genially. "Then you'd have been in time for the hanging! Beautiful hanging! Hanged two! The first one went to the gallows with a firm step, brave as a mountain lion; but the second one, he was a le-e-e-e-tle back'ard."

## Ireland Cultivating More Land.

While land is passing out of cultivation in England, Ireland has the good fortune to yield a contrary record. According to the figures for 1900, just issued by W. P. Coyne, the superintendent of the statistical branch of the department of agriculture in Ireland, the total area under crops shows this year an increase of 31,000 acres.

## Fast Flight of Clouds.

The average velocity of the tiny, fleecy clouds of the upper atmosphere is about eighty-nine miles an hour, while in winter they have sometimes been known to travel at the rate of 230 miles an hour. They are composed of ice dust.

## Ohio Girl to Wed Count.

Cincinnati, O., Dec. 10.—Miss Clara Longworth of Cincinnati is to wed the Count d'Chambrian of Paris, France. The announcement was made by her brother, Nicholas Longworth. She is the daughter of the late Judge Nicholas Longworth and the great-granddaughter of Nicholas Longworth, the founder of the family in Cincinnati, who was one of the wealthiest Cincinnatians in his time.

## Costly Fire at Canton, Ohio.

Canton, O., Dec. 10.—The Saxton block, owned by Mrs. M. C. Barber, sister of Mrs. McKinley, was destroyed by fire. Twenty families who occupied rooms above the business place are homeless. The entire loss will probably reach \$300,000, with insurance of one-third. Four firemen were seriously injured by falling walls.

## Fails with \$100,000 Debts.

St. Louis, Mo., Dec. 10.—The Missouri Guarantee Savings and Building association has made an assignment in the sum of \$100,000 to William H. Verity, trustee, for the benefit of the creditors and stockholders. All property, real and personal and mixed, was included in the assignment.

## Condition of the Czar.

St. Petersburg, Dec. 10.—A satisfactory bulletin issued at Livadia to-day concerning the Czar's condition, says: "His majesty's weight is increasing, and the organs affected by typhoid have returned to their normal condition."

## Pardon for Arabi Pasha.

London, Dec. 10.—The anniversary of the accession of the Khedive, says the Cairo correspondent of the Daily Express, will be signaled by the pardon of Arabi Pasha, who will thus be enabled to return from Ceylon.

## Persian Minister Arrives.

Washington, D. C., Dec. 10.—General Isaac Kahn, the new Persian minister to the United States, arrived here to-day from New York. He probably will be presented to the president during the coming week.

### PRIZES WON IN FAT STOCK SHOW

McLay Brothers of Janesville, Made a  
Fine Showing of Horses at  
Chicago Last Week.

The McLay Brothers' exhibit at the National Fat Stock Show in Chicago last week was remarkable in the number of prizes won. The honors taken by the Janesville horse men were:

First prize on three-year old stallion.  
First prize on produce of mare.  
First prize on cart horse.  
Championship on mare, any age.  
Gold medal offered by Clydesdale Association of Great Britain for International championship, best mare, any age.

All of the horses exhibited by this firm were bred by them. For get of sire where produce was exhibited their breeding won with two lots over their competitor.

Numerous other prizes aggregating more money than was won by any other exhibitor of pure-bred Clydesdales.

Their new importation of Clydesdales and Percherons arrived in New York on Thursday in good shape and will arrive shortly. William Hadden is in charge of the consignment.

### FOURTEEN CASES OF DIPHTHERIA

The monthly statement of the state board of health shows that during November Rock County had fourteen cases of diphtheria, one of which was fatal; two cases of scarlet fever with no fatalities, and four of typhoid fever with one death.

The report also gives eighty cases of small pox in this state, but no deaths. Diphtheria and membranous croup ran at the head of the list of contagious diseases, there being of such cases 201. Next comes scarlet fever, 128; and typhoid fever, 157. The total number of cases of contagious diseases is 567 with sixty-nine deaths.
